Invest in the future of supply chain by joining ASCM Twin Cities Access Pass initiative. ASCM Twin Cities is a Premier Elite APICS Training Partner, one of the largest ASCM partners in North America and your supply chain community for training, networking and engagement.

Invest in your employees by taking a new perspective on the value of membership. Let's focus on the larger company picture and collaboratively design a program that achieves Workforce Development. We already offer individual training. With Access Pass, we can intentionally use our training expertise to help achieve the company goals.

Invest in shared experiences as we bring our sense of community, uniting supply chain professionals to build a collaborative approach to problem solving. Specified company employees receive member pricing on all Chapter run trainings and events.

Invest in outside the box thinking. Our hours of advising will help to identify goals and opportunities within the framework of an independent assessment of the company perspective.

Invest in creating awareness of your company. Career Connection is a new approach to recruiting with a screening process designed to identify candidates that fit your team and possess capabilities to build on company success.

The graphic above outlines the basics of Access Pass, with the general program options on top followed by the specific attributes for your choice of Bronze, Silver, or Gold membership. We think this is the future of building and growing your company's supply chain.

To arrange a discussion, contact the chapter office at info@twincities.ascm.org or call 763-413-2513.
